Empathy Map

This empathy map represents the perspective of a customer applying for a credit card. It helps understand the applicant's needs, concerns, actions, and emotions so that the machine learning system can provide faster and fairer approval decisions.

SAYS	THINKS
- I need a credit card with quick approval. - I hope my application is accepted. - I want a transparent approval process.	- Will my credit score affect approval? - Are my income and documents sufficient? - I hope the decision is fair.
PERSONA NAME Credit Card Applicant (Customer/User)	
DOES	FEELS
- Submits personal and financial details. - Uploads required documents. - Checks application status regularly.	- Anxious while waiting. - Confident if credit history is good. - Relieved when approved.
